

Blue Dragon Jet Hydro

One of the most powerful of the available cable blowing machines, equipped with a hydraulic motors. This blower is recommended especially in heavier works which requires a large pushing cable force. Blue Dragon Jet hydro is designed for blowing cables with the diameter from 6 to 15 mm into ducts diameter 32 mm, 40 mm and 50 mm . This device has a solid construction, high quality feeder and hydraulic engines' power that allows cables injection at a distance up to 2,5 km. The set includes hydraulic unit with connection hoses.

BDJ HYDRO

Cable diameter [mm]	6 – 15
Duct diameter [mm]	30 – 50
Max blowing distance [m]	2500
Max blowing speed [m/min]	80
Max operating pressure [bar]	10
Weight [kg]	35
Dimensions [mm]	620x300x380

TRANSPORT CASE

Dimensions [mm]	690x430x440
Set Weight [kg]	48

POWER PACK

Dimensions [mm]	700x420x490
Set Weight [kg]	56
Max operating pressure [bar]	160
